Hannibal: Clouds of War

Widows of the Great War is the first major account of the experience of women who had to cope with the death of their husbands during the conflict and then rebuild their lives. It explores each stage of their bereavement, from the shock of receiving the news that their husband had been killed, through grief and mourning to the practical issues of compensation and a widow's pension. The way in which the state and society treated the widows during this process is a vital theme running through the book as it reveals in vivid detail how the bureaucracy of war helped and hindered them as they sought to come to terms with their loss. Andrea Hetherington also describes often overlooked aspects of bereavement, and she features many telling first-hand accounts from the widows themselves which show how they saw their situation and how they reacted to it. Her study gives us a fascinating insight into the way in which the armed services and the government regarded war widows during the early years of the twentieth century.

Hannibal Intended as a diversion from the Somme, Fromelles was was the worst-ever military disaster in Australian history, and is recognised as one of the bloodiest and most useless battles of the First World War. With the recent discovery of a mass grave and the disinterment of many diggers, it has now entered national consciousness in the same way as Gallipoli. In one night, British and Australian soldiers suffered casualties equivalent to the total toll of the Boer War, Korean War and Vietnam War combined. Barton's research has revealed that the Australian frontline troops gave away critical Allied secrets to the Germans which not only led directly to the Fromelles slaughter - but also contributed to the failure of the Somme offensive as a whole. The Lost Legions of Fromelles is the most authoritative book on this staggering disaster, combining new scholarship on the battle with an account of recent events to dispel many myths in a rich and compelling history.

Lost Legio IX Legio IX Hispana had a long and active history, later founding York from where it guarded the northern frontiers in Britain. But the last evidence for its existence in Britain comes from AD 108. The mystery of their disappearance has inspired debate and imagination for decades. The most popular theory, immortalized in Rosemary Sutcliff's novel The Eagle of the Ninth, is that the legion was sent to fight the Caledonians in Scotland and wiped out there. But more recent archaeology (including evidence that London was burnt to the ground and dozens of decapitated heads) suggests a crisis, not on the border but in the heart of the province, previously thought to have been peaceful at this time. What if IX Hispana took part in a rebellion, leading to their punishment, disbandment and damnatio memoriae (official erasure from the records)? This proposed 'Hadrianic War' would then be the real context for Hadrian's 'visit' in 122 with a whole legion, VI Victrix, which replaced the 'vanished' IX as the garrison at York. Other theories are that it was lost on the Rhine or Danube, or in the East. Simon Elliott considers the evidence for these four theories, and other possibilities.

The Road to Rome

Hunting the Eagles "The restless spirit of adventure which prompted the author, Mr George Manington, to enlist in the French Foreign Legion, at a later date called him post haste from London, and thus caused us, his friends, to promise to see the manuscript of "A Soldier of the Legion" through the press. Though well under forty years of age, he had been a student in France and Germany, a prospective doctor in Paris, a soldier in Algeria and Tonquin, a man of commerce in Indo-China, an interpreter, traveller, and journalist in South China, besides a participator in more fleeting occupations in many lands, including Japan and the Philippines. It was in the restful periods between these various enterprises that this book was written." -Preface

Forgotten Legion - ‘An incredible and important story, finally being told’ Mishal Husain On 28 May 1940, Major Akbar Khan marched at the head of 299 soldiers along a beach in northern France. What became of them – and of comrades captured by the Germans? Guarded Addiction Set in the late Roman Republic, in the first century B.C.E., The Forgotten Legion is a tale of the greatest empire of the ancient world from the perspective of those on the lowest rungs of its society. Romulus and Fabiola are twins, born into slavery to an enslaved mother who is much beloved by them, and much abused by their owner. At 13 years old, they and their mother are sold: Romulus to gladiator school, Fabiola into prostitution, where she will catch the eye of one of the most powerful men in Rome, and their mother into obscurity and death in the salt mines. Tarquinius is an Etruscan, a warrior and soothsayer, born enemy of Rome and trained by the last haruspex in the forgotten arts of divination. A runaway slave, then an AWOL Legionaire, he has a long foretold destiny that will take him to the very ends of the known world. Brennus is a Gaul from the Allobreges tribe. The lives of these four characters are bound and interwoven in a marvellous story which begins in a Rome riven by corruption, violence and political enmities, but ends far away, where Romulus, Brennus and Tarquinius find themselves fighting against the Parthians and overwhelming odds - survivors of one of the most legendary battles in Roman military history and destined to become part of one of the most compelling, enduring legends: The Forgotten Legion.

The Road to Rome

Black Legion Revised edition, with a new foreword and afterword from the author. ‘From an air-conditioned Chicago office, Mr. Salazar took the express elevator straight to hell. Legion of the Lost is his story, the improbable, very funny tale of a sensitive, bookish child of Mexican immigrants who walked away from a promising career and, for romantic reasons, threw in his lot with a motley assortment of thugs, drunks, drug abusers and desperate refugees from the far corners of the earth. And those are the ones giving orders.’ New York Times 'A story of horrifying institutionalised cruelty and incredible suffering, tempered with extraordinary camaraderie and mind-boggling fortitude. Legion of the Lost lays to rest romantic myths about the French Foreign Legion forever.’ Google Books ‘After about a year in corporate America, Jaime Salazar realized he wanted more in life. He wanted more than a big paycheck and a BMW. Salazar is a born adventurer and romantic and was not content with his job with Siemens in Chicago, where he was part of the technical sales teams. His ideals led him to the French Foreign Legion.’ The Purdue Exponent 'A colorful, detailed, and brisk account of the blood, beatings, binge drinking, racism, and occasional satisfaction and pride from his time with the Legion. Salazar’s prose marches along like a fit Legionnaire, largely un-ornamented yet getting the job done quickly and effectively, with all the dirt, swearing, and gunpowder one would expect from a military memoir. Legion of the Lost should prompt serious reflection about commitment, discipline, meaning, and purpose in life.' Good Reads No army is more surrounded by mystery, romance, and admiration than the French Foreign Legion. King Louis Philippe II created the Foreign Legion in 1831 as a way to rid France of penniless immigrants and others considered a liability to the French establishment. The Foreign Legion still exists today as an elite army of modern mercenaries from around the world, in the service of la France. Considered a haven for the dregs of society, joining the Foreign Legion was rumoured to be simple, but it wasn’t. Getting out of the Foreign Legion, as Salazar soon realised, proved impossible. So what was an engineering professional doing in the "Legion of the Damned"? For those Dostoevsky calls the “insulted and the injured,” men of character who seek adventure in the most obscure places, the Legion offers refuge. After surrendering his passport, and with it, any human rights, the Legion gave Salazar a new name and life. Even after finishing four months of what the Legion calls instruction, Salazar realized that his existence wasn’t like that of Gary Cooper in Beau Geste. It was more a primitive life of beatings, marches, fanatical discipline, and sadistic NCOs. Idealists looking for a new beginning come to the Legion, but only the toughest, and cruelest are left to wear the Legion headdress, the kepi blanc. Once enlisted, there are three ways to leave the Legion: finishing one’s five-year contract, disability, or leaving in a box. While serving a term in Legion prison, Salazar came up with a fourth solution - escape.”

Many Inventions The military adventures and romantic escapades of a young Roman soldier early in the first century.

The Forgotten War The two Carlist wars are probably the least remembered, outside Spain, of the civil conflicts of the country. In the first of these, as in 1936, foreign volunteers fought on both sides, among them the 10,000 men of the British Auxiliary Legion, an arm of Palmerston's foreign policy supporting the liberal Cristino cause and the young Queen Isabella II against her uncle, Don Carlos, pretender to the throne. With the Foreign Enlistment Act suspended in 1835, troops were recruited in Britain and Ireland to fight in a savage struggle. Ill-paid, poorly supplied and inadequately accommodated in appaling weather, the Legion suffered heavy mortality from typhus, yet fought bravely in battle, contributing to an eventual Cristino victory. Ireland played a prominent role in the Legion with four designated Irish regiments and many more men serving in other units.

The Silver Eagle Here Kipling adds to the world's catalogue of inventions since the dawn of time with a few of his own notable examples. Many Inventions brings together a number of Kipling's short stories and includes such works as 'His Private Honour', 'Brugglesmith' and 'The Record Of Badalia Herodsfoot'. Embracing his eternal preoccupations of Anglo-Indian relations and human sufferings, this collection is a fine example of Kipling's entire work.
